### Pretend Play

Be anyone, go anywhere.  
Unleash your imagination  
and dream without limits!

## About us

Founded in 1991 as New Classic Toys, our family business has now evolved into the Dutch brand Woet®.

At Woet®, we focus on creating wooden toys that combine timeless quality with a modern design.

Our goal is to design toys that are not only fun but also durable and meaningful, made to be enjoyed for generations. That's why we work carefully to create toys that are safe, long-lasting, and educational, so parents can feel confident about the choices they make for their children.

From our family to yours, we hope our toys bring much joy and endless adventures into your home. Welcome to Woet®.

# Our core values

Durable quality

## Durable quality

We specialize in making wooden toys and games that are made to last for generations. With a focus on timeless designs and a touch of nostalgia, we aim to minimize our environmental impact and promote sustainability. By choosing wood as our main material, we try to contribute to reducing plastic waste and support a greener future. We are always on the lookout for ways to improve our practices.

Safe & reliable fun

## Safe & Reliable fun

The safety of children is our number one priority. When creating our toys, we take our responsibility to ensure their safety very seriously. From the initial design phase to the manufacturing process, every step is closely monitored to minimize potential risks and hazards. Each batch of toys we produce is tested by an accredited laboratory according to the latest standards. All our toys are CE marked and comply with the EN71 safety regulations, allowing children to explore, learn and play with confidence.

Play to learn

## Play to learn

We believe that playing is an important way for children to learn and grow. That's why we create toys that are both fun and educational. We recognize that different age groups have varying needs and abilities. Our toys are designed with the age appropriateness in mind, taking the developmental stages of children in consideration. Playing with our toys will stimulate their imagination, boost their problem-solving skills and enhance their hand-eye coordination.

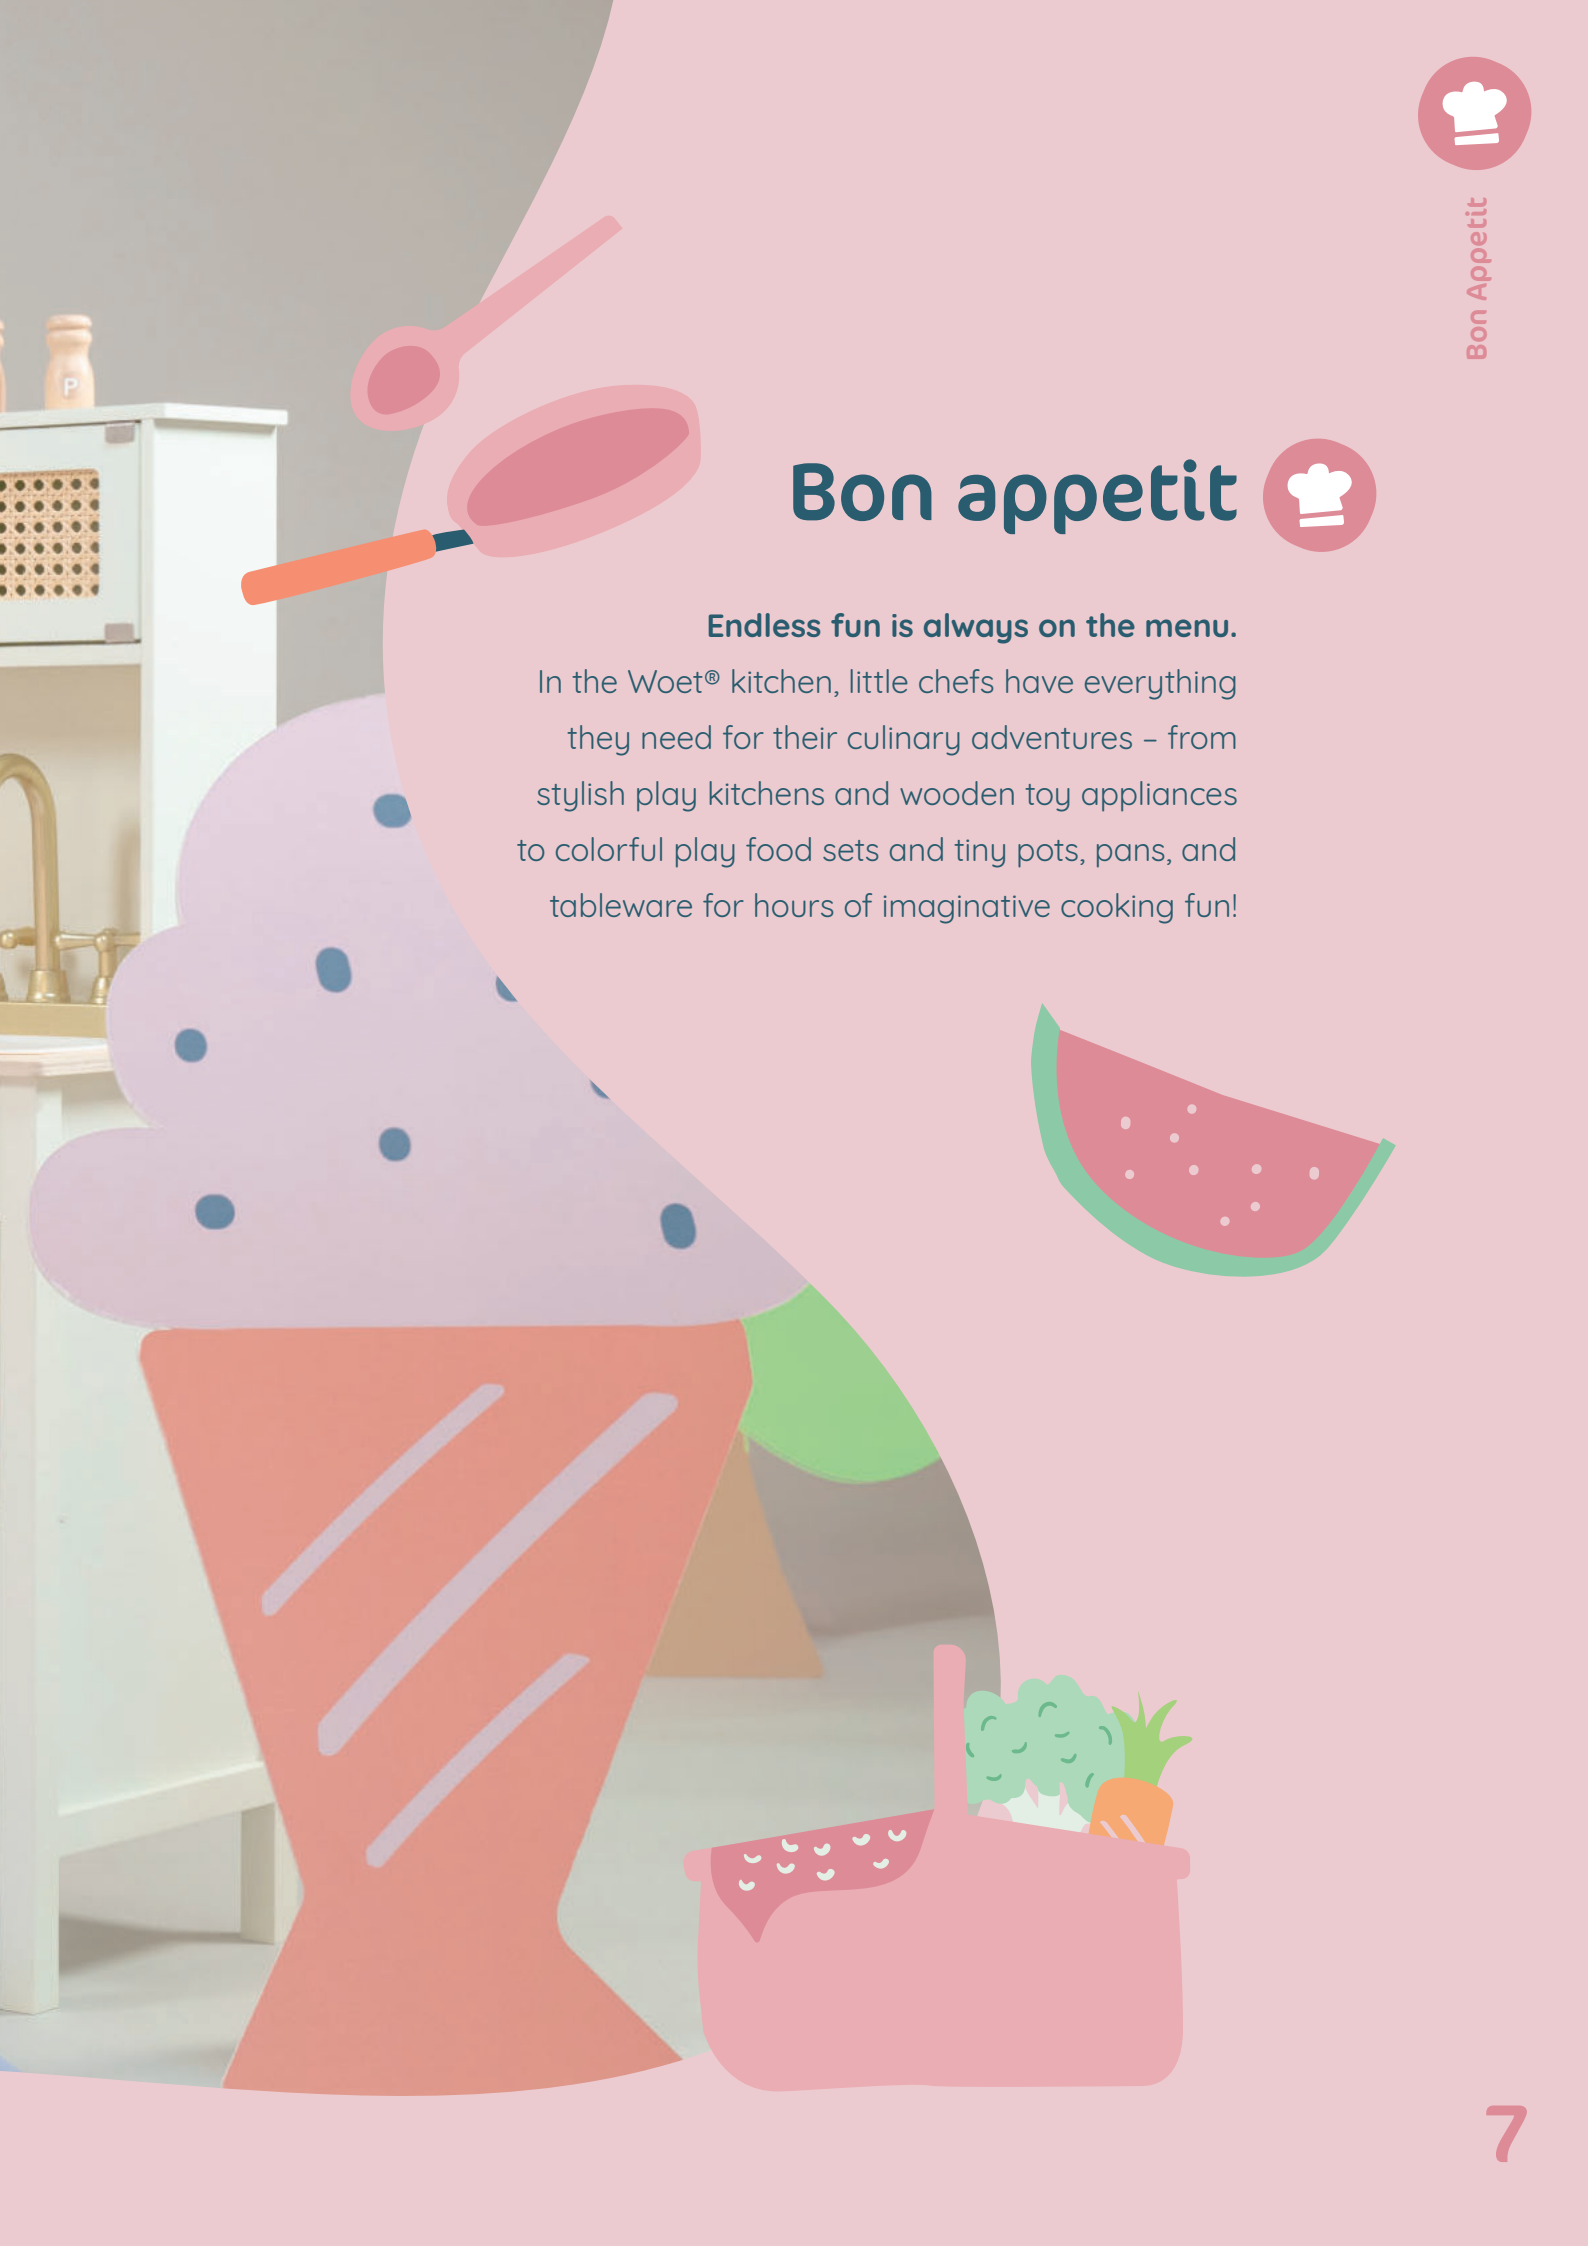

# Bon appetit

**Endless fun is always on the menu.**

In the Woet® kitchen, little chefs have everything they need for their culinary adventures – from stylish play kitchens and wooden toy appliances to colorful play food sets and tiny pots, pans, and tableware for hours of imaginative cooking fun!
